Getting Started: Planning Your West Coast RV Trip

Choosing the Best Time to Visit

The climate along the West Coast varies significantly from north to south, influencing the optimal timing for your trip.

- Spring (March-May): Mild temperatures, blooming wildflowers, and fewer crowds make spring ideal for outdoor activities.
- Summer (June-August): Peak season with warm weather, perfect for beach visits and hiking, but expect crowded campgrounds.
- Fall (September-November): Cooler temperatures, fewer tourists, and stunning fall foliage, especially in Northern California and Oregon.
- Winter (December-February): Cooler and wetter, particularly in Northern regions; Southern California offers milder weather and winter activities.

Tip: For avoiding crowds and enjoying pleasant weather, shoulder seasons like late spring and early fall are highly recommended.

Planning Your Route and Duration

Decide on your starting point and destinations based on your interests:

- Northern Route: Alaska, Washington, Oregon
- Central Route: California's coast, Sierra Nevada
- Southern Route: Southern California and Baja California

A typical trip can range from a week to several months. Allocate time for major stops like national parks, city explorations, and scenic drives.
