Breeders often achieve this through selective breeding with smaller breeds or by line breeding within Boxer lines to produce smaller adults.

While the concept of miniature Boxers has existed for decades, the trend surged around 2019-2020, with many breeders claiming to produce healthy, miniature versions of the classic Boxer. It is essential to verify the legitimacy and health standards of breeders offering these puppies.

Overexertion should be avoided, especially during their rapid growth phase, to prevent joint issues.

## Grooming and Health Care

Miniature Boxers have short coats that require minimal grooming:

Health-wise, miniature Boxers can be prone to specific issues, including:

- Patellar luxation (knee dislocation)

Regular veterinary checkups are vital to monitor and maintain puppy health.
